

HLPs in *Action*

Region 4 Community of Practice
2020-2021

Harness the power of High Leverage Practices (HLPs) to boost your inclusive practices! The Ready, Set, Go Team in coordination with TTAC @ GMU is pleased to offer four, 1-hour virtual community of practices for general education teachers and special education teachers who serve students pre-K-12 with disabilities. The community of practices will be aligned with TTAC's Ready, Set, Go newsletter articles published at the beginning of the same month. Read the Ready, Set, Go newsletter and then join a community of practice to learn several practical ways HLPs can be utilized to support your students. Register for all four sessions or select the topics that meet your professional learning needs. Registration is limited to 30 participants.
