

## District-Wide VATTS Considerations: Implications for Driving Specially Designed Instruction.

**Free Webinar on February 26, 2026 from 3:30-4:45pm**

Registration is available now at: <https://tinyurl.com/npsvatts> or the QR code below.

### **Webinar Description:**

Join the assistive technology team from Norfolk Public Schools as they share how they implement the Virginia Assistive Technology Tools and Strategies (VATTS) Consideration Guide to strengthen specially designed instruction for students with disabilities. This practical webinar will highlight district-level systems, team decision-making processes, and real-world examples of how assistive technology consideration moves beyond compliance to directly impact instruction. Participants will gain actionable insights for using the VATTS framework to support high-quality, individualized learning outcomes.

### **Intended Audience:**

Related service providers, AT/AAC specialists, general and special education teachers, paraprofessionals, administrators, parents, and other educational team members that support students who use assistive technology.
